	APPROVAL OF	STATE ENGINEER								
This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 31264, Certificate 9433 is issued subject to the terms and conditions imposed in said Permit 31264, Certificate 9433 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a measuring device must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. The place of use of Permits 46174, 46175, 46176, 46177 and 46178 is limited to 124.95 acres within the SW½, Section 3, .T.2S., R.35E., M.D.B.&M. This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. The acreage being stripped of water rights by this permit from Permit 31264, Certificate 9433 consists of 0.63 acres in the SW½NW½; all in Section 34, T.1S., R.35E., M.B.D.&M., for a total of 40.37 acres.
